

## Senior Food Project Engineer

We are seeking a Senior Food Project Engineer to join our team in Brisbane or Melbourne. This role will suit someone with 10+ years of experience in the food processing industry who values working as part of an integrated project team. The person will have a drive to be part of and represent our culture, values, brand and company with passion as they design and implement engineering solutions for our food industry clients.

### ABOUT THE ROLE

- Lead the design and engineering of production processes.
- Direct involvement in the facilities and building relationships and opportunities with our clients throughout Australia and Asia.
- Bringing ideas to improve and innovate solutions.
- Deep understanding of all aspects of food manufacturing environments.
- Work independently or as part of a team.
- Be keen to make a difference and find a better way.
- Manage engineering activities throughout a project's lifecycle
- Opportunity to manage and be involved directly in the design, construction and commissioning of production lines, processes and facilities
- Exposure to estimating, project management and contract administration.
- Our engineers are office-based with regular short-term travel required.
- You will be joining a team with experience across all areas of food production.

### ABOUT YOU

- 10+ years of experience as a mechanical engineer in engineering management or project engineering/management roles.
- Experience in food processing is desirable, with red/white meat primary or further processing experience highly valued.
- Digitally astute with various software packages.
- One step ahead. Ability to read people and have a desire to assist.
- Emotionally intelligent and can build rapport with a variety of people.
- Eye for detail.
- Confident in talking about engineering solutions and the latest technology.
- Experience within the food processing industry, meat or further processing experience highly valued.
- A Bachelor of Engineering is considered advantageous - we are open to a range of specialisations.

### ABOUT US

At Wiley, we believe in making a difference and creating a better future. With spirited curiosity, we plan perfectly, design elegantly and deliver results. We Design Build & Maintain facilities, so that our clients have the infrastructure they need to succeed. We are a fourth-generation family company operating in Australia and Asia, with offices in Brisbane, Melbourne, Sydney, Toowoomba and Kuala Lumpur.
