

Coomera Special School

General Learning Centre

Coomera Special School offers educational services for years P to 12. The Coomera region experienced growth in school aged population and as a result, additional facilities were required to continue to support their curriculum and student's special needs.

-  Coomera, Queensland
-  \$13.3M
-  August 2023 – August 2024
-  Design, construction, project management, Principal Contractor

Project scope

Wiley created a high-quality learning facility featuring 16 fully air-conditioned classrooms, storage, amenities, and a lift for two levels. They also constructed DDA-compliant walkways connecting all site facilities, along with landscaping, shaded outdoor play areas, parking, and service upgrades.

Business value to client

The expansion of Coomera Special School marks a significant milestone in enhancing the educational landscape of the local community. By increasing the Student Enrolment Capacity from 144 to 192, this project not only addresses the immediate needs of our growing student population, but also strategically positions the school for future growth. The additional capacity ensures that more students have access to specialised educational programs tailored to their unique needs, ultimately fostering a more inclusive learning environment.

The thoughtful design effectively resolved existing deficiencies in specialty spaces, ensuring the school can fully support diverse educational programs and activities. The new General Learning Areas (GLAs) cater to various learning styles, providing students with the tools they need to thrive. This investment in the school signifies a commitment to nurturing every child's potential, reinforcing the idea that education should be adaptable and inclusive.

Wiley Education's expertise in delivering inspiring educational facilities was pivotal to the project's success. Their team worked diligently within a live environment, collaborating closely with school stakeholders to minimise disruptions to the ongoing educational programs. The strong line of communication established between the Project Manager and the school Principal fostered a sense of trust, allowing for timely adjustments and ensuring that the project aligned with the school's vision.

Ultimately, this expansion is more than just a construction project; it's a testament to the community's dedication to education and inclusivity. By investing in quality facilities and creating an environment that prioritises learning, Coomera Special School is now better equipped to meet the needs of its students and prepare them for a brighter future. The project embodies a shared vision, where the community rallies together to uplift its members, creating lasting positive impacts for generations to come.
